WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.
A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA, BRONCHITIS, GENERAL DEBILITY AND ALL SCROFULOUS HUMORS.
THE proprietor has succeeded (from directions of Professor Stone, in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nauseous, to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the clear oil, the following case, by Professor Stone; is sufficient to convince the most sceptical. The young lady was 24 years of age.
"Her disease was one of unmixed phthisis, which had been expected to terminate in the course of a few months fatally. The upper part of both her lungs was filled with tubercles; and in some places were beginning to soften. The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but with at marked improvement. The Phosphate of Lime was then administered with the Oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well."
This preparation does not like the Cod Liver Oil become rancid which makes it very desirable for Persons travelling as it keeps fresh for a long time.

"A LITTLE KNOWLEDGE IS A DANGEROUS THING."
THIS saying has but a partial application.—A very little knowledge of the physiology of the hair teaches that want of care deprives many of that most becoming ornament to the person. Those who would desire to preserve their heads from baldness, cure thinnesses in the scalp, prevent discoloration, and secure a glossiness and softness of texture, should use Bogle's Hyperion Fluid.
Many look upon the process of shaving as one which requires a merely mechanical attention to accomplish perfectly. It is not so. The conditions which furnish the speediest and easiest accomplishment are a healthy state of the skin, and a suitable lather to preserve its soundness. Bogle's Amole is the most approved article for softening and smoothing the skin, and imparting to it an elasticity inconsistent with any chance of irritation, or eruptions which follow it. Sold by Wm. Bogle's Agents.

AYER'S
CHERRY PECTORAL,
For the rapid cure of Coughs, Colds, Hoarseness, Bronchitis, Whooping-Cough, Croup, Asthma and Consumption.
MANY years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unquestionable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many far inferior remedies thrust upon the community, have failed and been discarded; this has gained friends by every trial, conferred benefits on the afflicted, they can never forget, and produced cures too numerous and too remarkable to be forgotten.
While it is a fraud on the public to pretend that any one medicine will infallibly cure, still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably, cure the maladies for which it is employed.
At one time makes these facts plain and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant, to the palaces of European Kings. Through out this entire country, in every State, city, and town, almost every family is certain, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs. Also in milder cases, and for children it is safe, pleasant, and effectual a cure, in fact, some of the most flattering testimonials we receive have been from parents, who have used it effectually in cases particularly incidental to childhood.
The Cherry Pectoral is manufactured by a practical Chemist, and every ounce of it under his own eye, with unvarying accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.
We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy as once safe, speedy and effectual, which this land by repeated and countless trials proved itself to be; and trust by great care in preparing it, with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

Dr. Marchisi's Uterine Catholicon.
THE UNDERSIGNED, HAVING BECOME AGENTS FOR THIS INVALUABLE MEDICINE, would respectfully invite the attention of the afflicted to the gratifying success that has attended its use wherever introduced, and its happy adaptation to the cure of the distressing diseases for which it is offered.
This CATHOLICON is in truth one of the GREATEST MEDICAL DISCOVERIES OF THE AGE, and is destined to become identified with the health and happiness of
FEMALES.
This declaration is based on the fact that it will cure more than five cases in a case of very prevalent diseases, known as
FEMALE COMPLAINTS
and which have heretofore resisted the skill and efforts of the most accomplished Physicians of all countries, to a degree, beyond that, of almost every other malady to which the human family is heir. It has already received the approbation and liberal patronage of very many prominent members of the Medical Faculty in the United States, willing to slide the truth, and having due regard for the welfare of their patients, and it is every way worthy the confidence of the afflicted as A SUCCESSFUL, SAFE and *CHEAP REMEDY.* Of the additional proof will be found in the pamphlet, to which the attentions of Ladies and Practitioners is respectfully invited.
This medicine had never been introduced by empty puffs and interpresentations, nor is it intended that its present popularity shall be sustained by any modium but its merits and the approbation of the public.
The CATHOLICON is not a "cure-all," but is intended expressly for those complaints incidental to the respectable female whether married or single.—
PROLAPSUS UTERI, FLUOR ALBUS, CHRONIC INFLAMMATION AND ULCERATION OF THE UTERUS, INCIDENTAL HEADACHES, PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with their accompanying evils, (Cancer excepted) no matter how severe, or of how long standing.

A CERTAIN CURE FOR SUMMER COMPLAINTS.
BIGELOW'S ALTERATIVE.—A CERTAIN CURE FOR DYSENTERY, DIARRHOEA, CHOLERA MORBUS, and all Summer complaints.
Price, 50 cents.
GEORGE W. BLEECKER, Proprietor.
No. 205 Thames Street, New York.
This may certify, that I have tested the virtue and efficacy of "Bigelow's Alterative," and find it to be a safe and efficacious remedy for those very painful and often fatal diseases which at different periods affect both old and young, viz: Dysentery Cholera Morbus, &c. Believing it to be a valuable medicine in the above cases I cheerfully recommend it to those who may have the misfortune to be afflicted with Dysentery and the like, and having given it a fair trial in my own practice, which served admirably the purpose for which it was given, I feel no hesitancy in giving it my sanction as a safe and valuable medicine.
L. B. WRIGHT, M. D.
61 McDougall street.
I have used "Bigelow's Alterative" in my family and have never found it to fail, when all other remedies administered by, and under direction of Physicians have proved ineffectual. I think it a perfect corrective for Dysenteric and all bowel complaints.
GEO. W. BEEBEE,
New York, March 22, 1852. 47 Wall street.
We can add our testimony to that of others of its great efficacy in our own cases, when prostrated to an alarming degree by Bowel disease. It was the only medicine that gave relief and one now always kept in the family.

TUESDAY MORN'G, AUG. 24, 1852.

ELECTION MONDAY, NOV. 8.

Whig National Nominations

FOR PRESIDENT,

WINFIELD SCOTT,

OF NEW JERSEY.

FOR VICE PRESIDENT,

WILLIAM A. GRAHAM,

OF NORTH CAROLINA.

Electors.

ELISHA HARRIS, of Coventry.
ISAAC P. HAZARD, of Newport.
AMOS D. SMITH, of Providence.
CHARLES ALLEN, of North Kingstown.

☞ The New York Tribune comments upon our remarks in regard to the late liquor cases in this town, and says that we are "exceeding wroth" because "certain citizens of Providence have dared to visit Newport and complain of flagrant, ostentatious violators of a penal law of the State;" it also says that "the law was enacted almost unanimously," and concludes its rigmarole with the following wise, consistent and profound remarks:—

Had *The News* held its tongue it is probable the rumsellers of Newport would have had no opponents but the thoroughly cowed Temperance men of that haunt of fashionable drinking, and so would have prosecuted their law defying traffic with impunity.

In regard to the unanimity with which this law was passed, why does not the Tribune express its opinion upon the *mode* in which the law was infamously gagged through the General Assembly? Why does it resort to such a deceptive subterfuge, and attempt to make the public believe that the people of Rhode-Island desired the passage of the law. We challenge the Tribune to produce an instance, in any Legislative body, where a law, of even inconsiderable importance, was rushed through with such indecent haste, in the space of 24 hours, the friends of the law refusing to have it printed,—and the members, very many of whom were entirely inexperienced in all kinds of Legislation, *compelled* to vote upon so important a law as the one in question, with no means of considering its provisions, except as the law was rapidly read by the Clerk. What does the Tribune think of all this? We desire an answer. In the General Assembly, the law was rushed through by Temperance men allied by politicians who, in principle, were opposed to the law, but who hoped to gain political power by its passage.—This is the truth of the matter, and we defy contradiction of our statement,—contradiction, we mean, which can be substantiated by proof. Does the Tribune advocate such kind of Legislation as this, in regard to one of the most important laws which was ever enacted by men who claimed to compose a deliberative body? We pause for a reply. If the editor does, he should have lived in the days of the Star-Chamber iniquities.

Again, the Tribune speaks of "certain citizens of Providence who *dared* to come" here to enforce this law. Now, one who was not acquainted with all the facts in the case, would certainly suppose that these witnesses from Providence were men of immaculate morality, as pure as St. John,—of indomitable courage, as heroic as St. Stephen,—and possessed of as much zeal as any martyr who ever died in sustaining the religion which the Saviour came to earth to promulgate. Let us look at the facts; not our mere assertion of them, but facts as sworn to by these identical witnesses in Court. In the first place, who and what are they?—Both are machinists. Upon a rigid cross-examination, which very closely resembled the drawing of sound double teeth which were clenched to the jawbone,—these men finally admitted that they were both *Sons of Temperance*; they came to Newport, and visited Hotels on *Sunday*, and in the space of *three hours* drank rum four *times*, one of them testified that he drank less than a *dozen times*. They both stated under oath that they had taken a solemn obligation not to drink spirituous or intoxicating liquors as a beverage. The witnesses presented a swaggering appearance, answered questions in a boisterous and defiant manner, frequently saying to Counsel, during the examination,—*Yes sir-ee*, laying great emphasis on the last syllable. Their whole manner served to indicate that they felt as if they had perpetrated a really fine joke; their general conduct and appearance in Court cannot be described; it should have been observed to have been appreciated. If they resided in New York, they would be classified with the genuine "Bowery boys."

Now we ask the Tribune what it thinks of men who are Sons of Temperance, and who have taken a solemn obligation not to drink liquor as a beverage—men who profess to be members of a truthful, moral and humane society, whose work is to raise up the low and regenerate the fallen,—what does it think of such men coming to Newport on the *Lord's holy day*, on a frolic, going to hotels and drinking rum *four* times in the short space of *three hours*?—Would it repose confidence in such men? are their oaths to be relied on? are they entitled to any confidence or respect from any decent man? Let us have an answer, Mr. Tribune. In these complaints, this is the worst and most degrading feature, and it is one which almost every one in this community denounces, especially the more rational Temperance men. We know of but very few who countenance it; some of the Sons of Temperance, in this town, are disgusted with such degrading and infamous conduct, and have expressed their strong disapprobation of it. These witnesses have falsified themselves; if they swore to the truth, they violated their oath or pledge as Sons of Temperance,—and hence they are not to be credited in Court; if they swore to a falsehood, they have been false to the Sons of Temperance, and false to Law and Justice.

We will submit this question to any twelve men, from any part of the country, provided their brains are not distracted by all the *isms*, which, in modern times, disgrace some members of the human family—with the fullest confidence that they will decide that this transaction, and the conduct of all who are engaged in the prosecutions here, either openly or secretly, is infamous, degrading and mean, to the very lowest conceivable degree. Judas Iscariot justly earned the contempt of the world for his treason; but there is a position in the scale of degredation lower even than that.—and there are some men, concerned in this business, who have succeeded in descending to that platform of infamy.

If fanatical friends of the Maine Law desired to enforce the law here, why did they not show themselves *men*—why did they not exhibit moral courage, and do the work themselves? Why did they permit themselves to be entangled in such a disgraceful alliance? Why are they associated with *such men* as these witnesses—these rum-drinking Sons of Temperance from Providence, who sneak down to Newport in the night, and crawl into the Jail because no respectable Hotel will give them shelter.—While these witnesses were testifying in Court, we saw worthy and respectable Temperance men, ministers of the gospel and others, who had no participation in this matter, hanging their heads and looking mortified to the heart's core, that any respectable man in Newport should have been identified with such low and disgraceful transactions.

We hold to the doctrine that no great moral reformation can be accomplished unless all the appliances and agencies of that work are moral in their nature, and are capable of passing the ordeal of the testing crucible, and coming out pure and unscathed from the fire of the alchymist. Could Jesus Christ have established his holy religion by becoming a participator in sin, that he might show the Jews what sin was,—or that he might become a living witness before his Father's throne, as to the guilt of Pontius Pilate, and the horde who persecuted and crucified the Saviour? The world is safe in taking the Saviour as an examplar of all that is perfect in the work of reformation, whatever its character may be. He was without sin and without blemish, and the precept and the example which He has bequeathed us is worthy of the fullest imitation, for both are sealed with the impress of Divinity.

Finally, the Tribune asserts that if we had never written any articles in regard to the law, "the thoroughly cowed Temperence men of this haunt of fashionable drinking" would never have opposed the drinking of liquor here.—This is the Tribune's assertion; very well, the "thoroughly cowed Temperance men" of Newport are welcome to this friendly appellation from their brother Greeley, of the Tribune. We have no sympathy with the fanatical Maine Law men of Newport; but we know that many of the worthy Temperance men of this town are unworthy of the epithet which Greeley applies to them; they breathe a purer air, and they are guided by nobler and more honest motives than propel Horace Greeley through the world; and such a charge comes with exceeding ill-grace from him. He has identified himself with all the degrading and demoralizing *isms* of the age—isms which are calculated to sap the great moral foundations of the social compact, and to disorganize the whole fabric of society. He has openly and bitterly opposed the Fugitive Slave Law, and countenanced sedition and rebellion; he has libelled and slandered the greatest living statesmen of the age, merely because they have been true and faithful to the Constitution. In short, he has done a thousand things which should forever close his mouth, and prohibit him from charging others, who are innocent, with being guilty of misdemeanors which he has over and over again committed. Is he prepared to be arraigned before the bar of public opinion, aye, and the bar of Eternal justice, for his participation in Fourrism, Free Soilism, Socialism, Abolitionism, Fanaticism, Maine Lawism, spiritual-rappingism, Magnetism, Swedenborgianism, and a thousand other ridiculous and wicked *isms* which we have not time or patience to enumerate? When he is prepared to meet these charges and has been acquitted, then let him come, with a clear conscience and clean hands, and bring his charges against us and against Newport, and we will be prepared to respond to them, and to answer them in the most successful manner. But until then, let the mongrel-headed Tribune attend to its own business, and not undertake to meddle with a matter about which it is entirely ignorant.

In regard to the examination of witnesses, on Wednesday, although there was a large crowd of spectators in the Court room, the most perfect order prevailed, and the deepest attention was paid to every word which was uttered. All that our people ask or desire is that they and their affairs may not be interfered with by any one from other places, and especially by such loafers as created the disturbance here a short time ago. The people of Newport always attend to their own affairs in their own way, and never meddle with those of other people. Their disposition is not to resist the Maine Law, but to use all proper and legal means to obtain its repeal; this they will do boldly, firmly and undeviatingly.

☞ We call the attention of our readers to the Matinee Musicale, which is to be given by the Germaniane, at the Ocean House tomorrow morning.—They are too well known, to require any commendation from us; all which they undertake is always well done.—They will be assisted by Mr. Scharfenberg, from New York, who is a well known and celebrated Piano player.—This Matinee is an entertainment very highly appreciated and often gotten up in all the first-class English watering places, such as Brighton, &c., and will no doubt be very much liked by the lady visitors now here. In England the custom is for the ladies to attend in their morning dresses; the music is in the centre of the room; and the ladies and gentlemen gather around and enjoy themselves in a social manner, as at a party, &c.

☞ We have received *two* more communications from ladies at the Ocean House, expressing the hope that Mr. Jaell will give another Concert. We have heard from others that a large number of the visitors are exceedingly pleased at the prospect of being favored with another Concert by this gifted and eminent musician. We have every reason to believe that Mr. Jaell will gratify this general request. It is well known that at his first Concert, the Hall was so crowded that many were unable to obtain admission, and we, therefore, hope that he will comply with the wishes of those who are so anxious to hear him.

The Warren Baptist Association will hold their next annual meeting with the Baptist Church in this town, commencing on Wednesday, the 1st day of September.—*Warren Star.*

DR. WEAVER'S MEDICINES—THEIR EFFECTS ON CANKER AND SALT RHEUM.

PAW PAW, Mich., Nov. 3, 1851.

Messrs. S. A. Weaver & Co.—Gentlemen: My daughter has been troubled with Canker and Salt Rheum for the last year, and it increased day after day, to that extent that myself and friends became so alarmed that we thought there must be something done for her, or she must die; we tried many kinds of Medicines, but nothing did her any good, but she rather grew worse. She kept about till last May, and said she must give up, go to bed and die; there was no help for her. The most skilful Physicians of the place attended her, and no help could be procured from their hand. If she took any nourishment, it would produce vomiting; her hands and face were covered with sores, her strength had worn away, our friends and neighbors gave her up to die, and physicians too said there was no help for her; they could not do her any good. I could not bear to see my daughter dying with that distressing complaint, although I must say I was almost discouraged myself. Hearing of your Canker and Salt Rheum Syrup, which led me to procure one bottle of your agents, F. Smith & Co., of this place. About the middle of August she commenced using it according to directions, and I must say the first dose she took she said she felt better, and it kept her vomiting, and in five days she could walk the room with a little help. She continued the use of your medicine, and in a few days the Canker came into her mouth. I procured one bottle of your Canker Cure and applied it to the Canker, which soon disappeared. The Canker also healed freely on her sores, which soon caused them to heal. She shortly began to eat her regular meals, and increase in strength. Four bottles of your Syrup have saved my daughter's life. She is now very healthy, and apparently well. I have it all to Dr. S. A. Weaver's Canker and Salt Rheum Syrup. I believe this medicine has done what nothing else could do, and we most cheerfully recommend it to all who may be troubled with that complaint.

Dr. S. A. Weaver:—Sir: If you think this information worthy of your notice, you are at full liberty to publish it to the world.

Yours respectfully,

MRS. HANNAH BEACOM,
Daughter of WM. TANNER.

Dr. S. A. WEAVER:—Dear Sir:—It gives me pleasure to say that the above will be considered by all who are acquainted with Mrs. Hannah Beacom, a simple statement of facts, given with the hope of alleviating suffering. I would add that the certificate is from a source in the highest sense reliable, and worthy of confidence.

Yours truly and sincerely, A. STEWART.

IMPALPABLE Ivory Pearl Tooth Powder. The best and most highly approved Dentifrice for removing Tartar, Scurvy, Canker and all foreign substances destructive to the Teeth.

The influence which the teeth exercise over beauty, justifies the pre-eminence which I attribute to them over all the other attractions of the countenance. This prominent is equally attractive in both sexes; it distinguishes the elegant from the shrewd gentleman, and diffuses amiability over the countenance; by softening the features. But it is more especially to woman that fine teeth are necessary, since it is her destiny first to gratify her eyes, before she touches the soul, and captivates and enslaves the heart."

RICH RIBBONS.

LARGE Additions to our Stock of rich Tartan and Fancy Ribbons will be opened this day
a13 F. LAWTON & BROTHERS.

The R. I. Society for the Encouragement of Domestic Industry, and

The R. I. Horticultural Society,

WILL hold the third annual "Rhode Island Industrial Exhibition" of Domestic Manufactures and Agricultural and Horticultural Products, with a Cattle Show, Plowing Match, and Drawing Match, in the City of Providence, on the 15th, 16th, 17th, and 18th days of September next, in the Halls of the Railroad Station, where the Exhibition of last year was held.

The Exhibition Rooms will be open to the public on *Wednesday, September 15th, at noon*, and will continue open through the week, from 9 a. m. till 9 p. m.

The *Cattle Show* will be on *Thursday, September 16th, from* 9 o'clock a. m., till 3 o'clock p. m. on the "Butler Lot," where the same was held the last year. The stock must be on the ground by 9 o'clock a. m., and cannot be removed till after 3 o'clock p. m. Persons intending to offer any species of stock for a premium, should give notice thereof, either by letter or by personal application, to William T. Grinnell, Secretary of the Board of Managers; on *or before* Wednesday, September 15th. The difficulty of making arrangements for the different kinds of stock, without this previous notice, renders a compliance with this rule necessary.

The *Drawing Match* and *Trial of Working Oxen* will be at 10 o'clock a. m., on Thursday, September 16th, at Atwell's Avenue, near the "Butler Lot," for which a Wagon and Carts with loads of various weights will be provided by the Board of Managers. The *Plowing Match* at 2 o'clock p. m., on the same day, (Thursday, Sept. 16th,) at a place which will be designated in the newspapers previous to the day. (Exhibition)

The competitors for Plowing are required to enter their names with the Secretary, at least four days before the day of trial.

The Public Address will be delivered by the Hon. George R. Russell, of Roxbury, Mass., on Friday, September 17th; the hour and place to be announced in the newspapers.

By reference to the show bills which has been extensively circulated, it will be seen, that a sum of money amounting to about Two Thousand Dollars, is offered in premiums upon articles designated in the bill; comprising the products of the farm and garden, of the mill and workshop, and of household labor.

The premiums will consist of Silver Medals, Diplomas, published Transactions of the Rhode Island Society for the Promotion of Domestic Industry, and money. Diplomas may be substituted, if requested, at the discretion of the board, for a first-class money premium.

All premiums will be awarded by judges, selected with reference to their special knowledge of the articles presented for that purpose, and every precaution will be taken to ensure strict justice and impartiality.

Apprentices will be allowed to compete for premiums, with the consent of their employers.

Citizens of other States are also invited to unite, and compete with us on equal terms, in all mechanical inventions and improvements, and manufactures.

Motive power is provided for machinery, and notice must be given in writing to the Secretary, Wm. T. Grinnell, "Providence," by the 1st of September, stating the space and horse power required, also the speed, and the size of the driving pulley. But the Board of Managers will not engage to provide motive power, unless in their judgment the machinery offered for exhibition will warrant such an expenditure. The Secretary will inform the applicant, whether or not his machinery can be furnished with power.

Show Bills, and any other information may be obtained from William T. Grinnell, Secretary.

The Halls of Exhibition will be opened for the reception of articles to be exhibited, on Wednesday, September 8th, and all articles, excepting Horticultural products, *must be delivered to the Secretary before Tuesday, September 14th, at* 12 o'clock m., in order to entitle them to entry.

Fruits, flowers and vegetables will be received on Wednesday, from 8 till 10 o'clock.

A check will be given for each article, which must be presented when the article is reclaimed, and no article can be removed until the close of the exhibition, unless by special permission.

Owners or agents of such articles as may be deemed sufficiently meritorious, and also members of the respective societies, will be provided with tickets of admission, gratis, but in no case transferable.

All articles deposited will be at the risk of the owners, who are invited to be present during the hours of exhibition. In the intervals of the exhibition, the Managers will cause the most efficient measures to be taken for the protection of the property.

The board of Managers appeal with confidence to the public spirit of the citizens of this State, and to all interested in this Exhibition, and invite them to use their influence and exertions, and to contribute their productions to the various branches of useful and ornamental employment, to make this surpass the eminently successful exhibitions of the two past years. They invite the Farmers to contribute to the exhibition the products of the soil and dairy, and whatever specimens they may have of stock or poultry, showing superior qualities, as well as the beautiful results of the Gardener's industry and skill; and the Board of Managers most urgently solicit contributions from all of the numerous branches of mechanical industry in which this State abounds, and of which we are justly so proud. They wish to see at the Exhibition, a piece of cloth from *every Mill* in the State; specimens of Printing from all our Printing establishments; any articles used in the various kinds of manufactures, that exhibit mechanical skill, superior workmanship or chemical excellence; new or improved machines; models of machines calculated to facilitate or perfect the operations of any of the arts or manufactures; newly invented agricultural implements, or superior specimens of such as are now in use; specimens of Jewelry, and of all articles in wood, metal or stone, showing improvements or inventions of value in the arts. They also invite the contribution of Paintings, Statuary, Architectural designs and models, and any other specimens of the Fine Arts. They solicit, in short, a contribution of whatever may tend to illustrate the present condition of the industrial arts among us, and mark the degree of development of our material resources.

PERRY CO. WARM SPRINGS.

THE proprietor of this pleasant and delightful Watering Place, feeling highly gratified with the success which has attended his management of the above establishment during the two past seasons, has increased his efforts to render the place and accommodations still more inviting and comfortable by adding a large building to the same.

The Warm Springs are situated in Perry county, Pa., on Shermans Creek, one of the healthiest situations in the State. These waters are well known for their excellent medicinal qualities, and for the permanent cures of Scrofula, Tetter, and all eruptions and diseases of the skin.

The Springs are accessible by the Central Railroad to Duncannon, where a coach will always be in readiness, on the arrival of the cars from the East, to convey passengers who desire to visit the Springs, 14 miles N. W. of Duncannon. All persons leaving Philadelphia in the morning train of cars can arrive at the Springs early the same evening. The coach will commence running daily on and after the 1st day of June next, and continue during the season, leaving the Springs every morning so as to reach the cars going East. There will also a coach be run daily from Carlisle, by Mr. Pendle, on the arrival of the cars from the East, for the Springs, the distance being 14 miles—the route passing by the Carlisle Sulphur Springs, and Sterrett's Gap, and affording one of the most delightful views of the Cumberland Valley to be found.

All communications for the Warm Springs should be directed to Duncannon P. O., and will thus arrive at the Springs daily.

The terms for boarding will be moderate, and every attention paid to those who may be pleased to pay him a visit during the season. Ample provision has been made for gymnastic exercise and pastime and accidents, while the brook affords delightful fishing, as well as sailing in boats.

The subscriber has the pleasure of referring to the patrons who favored him with their company the past season, among whom are—

Wm. C. Cozzens & Co.,
No. 72 Thames Street,

RESPECTFULLY invite the attention of Housekeepers and strangers visiting Newport, to the new and beautiful style of Printed Felt Carpetings, manufactured at the Bay State Mills, Lawrence; the following advantages render them particularly worthy of notice:—

The colors being fast and surpassing in brilliancy those in the woven articles; the coming up panting down, no binding required and low prices owing to the great width and the labor, being such that dust cannot penetrate it; but is easily swept off, rendering it unnecessary to take up the carpet to be shaken.

Strangers returning home and requiring carpetings, will do well to examine the article and the various patterns, as we are agents for the manufacturers, and can furnish them in any quantity or style, at the agent's prices; packed up ready for shipping.

A few samples of the article may be seen at several of the Hotels.

DOCT. F. GOURAUD,

Medical Doctor, a graduate of the Academy of Medicine and Surgery of Paris, France;

SURGEON OCULIST,
DENTIST,
AND PROFESSOR OF CHEMISTRY,

has the honor to apprise the Ladies and Gentlemen of Newport and vicinity, and in general his old acquaintances and former patients, for this sixteen years past, that he has begun anew his former practice of Medicine and Surgery, at his Dwelling No. 19 Bridge street, where he offers his professional services to them, as a Surgeon Dentist and Oculist: his long experience and reasonable warranties, given to those who place confidence in his skill, dexterity and performances in giving general satisfaction, will have the merit to secure an enlightened public that their patronage will not be met with, under regard to their trust either for themselves or their children in regulating the defects of their teeth in the different operations performed in the art of Dentistry upon them.

As a Surgeon Oculist, in the varieties of diseases either chronics, inflammatories or accidentals, which affect the Eyes and the sight, either in young subjects or older ones; the Doctor during his late sojourn in the city of Paris, has by deep scientific and laborious studies, rendered himself eminently acquainted with them, principally with those concerning the operations performed on STRABICS SUBJECTS, or Squint Eyed.

This delicate operation which gives immediate relief to an awkward and disagreeable deformity of nature, performed by a skilful operator, is reduced to about 30 seconds, or, to the farthest, to one minute's anxiety; and, no other hurt or sensation than the feeling of a mite of sand, entering under the Eyelids, or the prick of a fine cambric linen needle, introduced in the flesh; as an evidence, the only slight or inspection of the instruments used in performing the operation, will be sufficient to induce a stable, without any hesitation to desire the immediate performance of the operation.

It is necessary here to state, that in 1841, the Doctor was the First practitioner who introduced and performed the operation of strabism, in the city of New York, upon 24 Strabiles subjects, with an indisputable success, after having operated upon upwards of 300 in France.

THE ONLY ORIGINAL AND GENUINE
CLIREHUGH'S
TRICOPHEROUS!

Let those now use
Who never used before;
And those who always used
Now use the more.

REDUCED FROM ONE DOLLAR
TO FIFTY CENTS PER BOTTLE!

THIS justly celebrated and widely known compound which for sixteen years has met with unbounded success wherever it has been introduced, is now reduced to such a low price as will enable it to be within the reach of all, as it is the cheapest and best article now in use. Its curative properties and almost miraculous Scald Head, Salt Rheum, stings of insects, and all the numerous train of disagreeable cutaneous eruptions disappearing as if by magic.

ITS STRENGTHENING AND STIMULATING qualities are unrivalled, rousing into action the nerves and blood vessels which carry nutriment, imparting health to this greatest of nature's adornments (a beautiful head of hair) to the latest period of life.

FOR ERADICATING DANDRIFF it is unsurpassed. Cleansing the skin completely of every impurity, leaving the hair neither gummy, or dry, but moist, soft and silky. It is superior to all to dress the hair, as it does not soil the hat or head dress and keeps longer moist.

THE TRICOPHEROUS has gradually risen in favor with the public, by its own merits and not like the puffed and ephemeral compositions existing to day, and swallowed in oblivion to morrow, until it has become one of the staples of life, and looked to by all as one of the necessaries of the toilet and medicine chest.

The known popularity of the Tricopherous has occasioned many spurious articles, bearing outwardly the same name and character. Ladies and Gentlemen purchasing must therefore be careful to ask for CLIREHUGH'S TRICOPHEROUS.

Prepared by Vine Clirehugh, New York, and for sale by his only wholesale and retail agents.

ANOTHER SCIENTIFIC WONDER!
GREAT CURE FOR
DYSPEPSIA!
DR. J. S. HOUGHTON'S
PEPSIN,
OR THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist; by J. S. HOUGHTON, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water, will digest or dissolve *Five Pounds of Roast Beef in about two hours*, out of the stomach.

Pepsin is the chief element, or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food, the Purifying, Preserving, and Stimulating* Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed; just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Remarkable Evidence upon which it is based, is in the highest degree curious and remarkable.

SCIENTIFIC EVIDENCE! Baron Liebig, in his celebrated work on Animal Chemistry, says: "An artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be *softened, changed, and digested, just in the same manner as they would be in the human stomach.*"

☞ Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence, similar to the above, together with Reports of Remarkable Cures, from all parts of the United States.

AS A DYSPEPSIA CURER, Dr. Houghton's Pepsin has produced the most *marvellous effects*, in curing cases of *Debility, Emaciation, Nervous Decline* and Dyspeptic Consumption. It is impossible to give the Details of cases in the limits of this advertisement, but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and peculiarly useful for tendency to Bilious disorder, Liver Complaint, Fever and Ague, or bodily wasted Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also for excess in eating, and the too free use of ardent spirits. It almost reconciles *Health with Intemperance.*

Dr.
